Wholesale Growers

EL MONTE

LOS ANGELES COUNTY, CALIFORNIA, U. S. A.

— [CABLE ADDRESS: "Bodger El Monte"] —
Registered All Codes

Our Modern Warehouse and Shipping Department, situated in the fertile El Monte Valley.

TERMS AND GENERAL CONDITIONS OF DELIVERY

ALL seeds are quoted F.O.B. El Monte, California, for delivery after harvest crop 1935, 60 days net, less 2% cash 30 days. All invoices payable in U. S. dollars in or by New York or Los Angeles Exchange. All overdue accounts subject to sight draft without further notice.

Bags and containers will be charged at cost and are not returnable.

We reserve the right to advance any or all prices in this list on orders received after May 1st, 1935.

For every order, we agree to plant sufficient land to produce the desired quantity of seed under normal conditions.

In case of crop shortages, orders will be filled pro rata only.

Crop failure or any cause beyond our control releases us entirely from delivery.

We give no warranty, express or implied, as to description, quality, purity, productiveness, or any other matter of any seeds we sell, and we will not be in any way responsible for them. If seeds are not accepted on these terms, they are to be held subject to our order.

BODGER SEEDS, LTD.

TO THE TRADE:

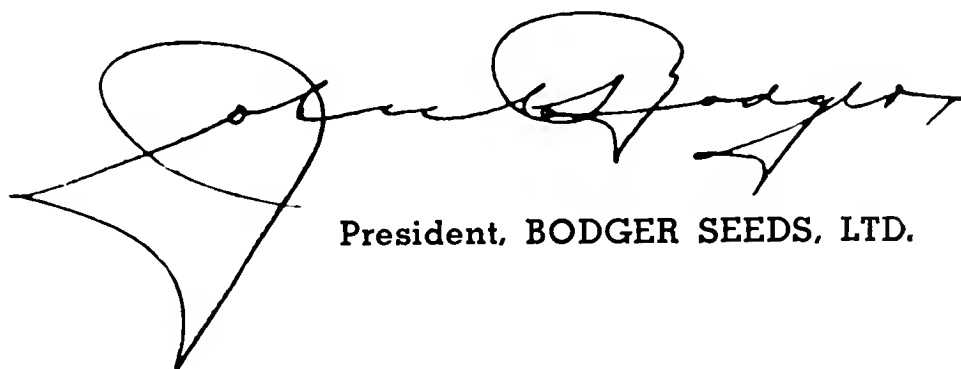

IT is a source of inestimable satisfaction to us who are carrying on this business begun by our beloved founder, John Bodger, to realize the extent to which it has expanded during the forty-four years we have been developing and growing flower seeds. There is great joy in guiding a business in its expansion from the most humble of beginnings to one which now extends throughout the furthestmost parts of the globe. Our seeds last year went to almost every country where seeds are sown—from Norway to the Cape, to New Zealand, China, Siam, India, Palestine and the Argentine.

We are justly proud of this vast world-wide business, as it is a direct recognition of the high standard of work carried on by our staff of horticulturists in producing the world's choicest flower seeds. It is also evidence to us that our custom of executing orders the day they are received, thereby assuring our customers of the fastest service possible, has given them confidence that, no matter how remote the country in which they live, Bodger's seeds will reach them in the shortest possible time.

We have always tried to incorporate in our Trade List those innovations and improvements which we think will be of use to our customers. Two years ago we changed the style of our list and added symbols which designate the type of plant and its special uses. Last year we numbered our electros for facility in ordering, and this year we have extended this number system to cover all flower seed varieties which we list. We believe it will eliminate much confusion if you will use these numbers when ordering, especially when there are two or more varieties within a group with similar names.

Although we are well equipped to maintain our reputation for fast service and expect to plant an acreage adequate to cover the increased demand for our quality flower seeds which we anticipate with the general improvement in business conditions, still it will help us immensely if you will place contract orders for all varieties you are sure to need. If interested in large quantities, we shall be glad to quote you special prices wherever possible.

We feel sure that your business this year will be greatly increased over the past few seasons, and trust that we may continue to serve you as we have in the past.

A large, stylized handwritten signature in black ink, appearing to read 'John Bodger'. The signature is written in a cursive, flowing style with large loops and a long horizontal stroke extending to the right.

President, BODGER SEEDS, LTD.

BODGER SERVICE DEPARTMENT

WE wish to call attention to our Service Department, which is equipped to take care of your publicity needs. This includes our excellent photographic service, through which we are able to furnish a complete line of first class photographs of novelty and standard flower varieties.

We are also able to furnish electros of all cuts in this list, as well as those used in our previous lists. Within the next few weeks we expect to have a full line of small sized electros available for use in the smaller catalogs.

Many have taken advantage of our offering of nicketypes used in illustrating our 1934 novelty list. These nicketypes are still available, and we expect to add to this selection when we issue our 1935 novelty list in August.

May we remind you that we can supply colored postal cards of Cosmos Early Klondyke Orange Flare, Nasturtium Double Scarlet Gleam and Nasturtium Double Glorious Gleam Hybrids at \$1.20 per hundred. We will be glad to have your suggestions as to other postal card subjects you could use.

We still have a limited quantity of Nasturtium Glorious Gleam Hybrids posters, at fifteen cents each.

In response to many requests we have listed on page 145, the number of seeds per ounce of novelty items and some of the more common flower varieties. We have also listed some of the specialized uses of flowers on pages 146 and 147. We trust this information will be of some benefit to you.

NOVELTIES

You will notice in glancing through the following pages that we are not introducing any new Bodger novelty items, listing only those offered in our two 1934 lists. In previous years it has been our custom to list current novelty offerings in our general trade list, but this year, for various reasons, we have decided to withhold this listing until we issue our novelty list in August. Please note this change in policy and watch for our August Novelty List for full details and prices on our new introductions. These will include new colors in the **Double Gleam Nasturtiums**, an excellent strain of truly **Dwarf Double Hybrid Nasturtiums**, a remarkable **Crimson Super Giant Aster**, and an entirely new color in **Grandiflora Single Fringed Petunias**. While we are not prepared to give further details at the present time, we want you to have some idea of what to expect for your novelty material in 1936.

In the following pages we call your attention to the outstanding novelty introductions for 1935 retail sales. Many of these were winners in the 1935 All America Selections, the highest honor that can be granted a new flower variety in the United States. Besides the All America winners, we call your attention to other worthwhile novelties, as listed hereafter.

The All America Selections have done more to publicize and popularize novelty items than any agency connected with the flower seed industry. It speaks with authority on the characteristics, the adaptability to American conditions, and the usefulness of introductions, both from this country and abroad, before they are disseminated in the United States. In following the recommendations of this Committee the American retail buyer is not gambling on an untried, untested product, but is investing in one of known worth.

It is with pride that we call your attention to the large number of Bodger introductions which have been adjudged worthy by this Committee. We have abbreviated the designation of awards in the body of our list as follows: Gold Medal (G.M., A.A.S.), Award of Merit (A.M., A.A.S.), Special Mention (S.M., A.A.S.).

No. 506 NICKELTYPES \$16.00

COSMOS EARLY KLONDYKE . . Orange Flare (Bodger)

Grand Champion Gold Medal Winner 1935 All America Selections

The unanimous choice of all judges in the 1935 All America Selections, our introduction, Orange Flare, has proven itself worthy of this honor. Bright vivid orange, very free flowering, 2-3 feet tall, with a sparse growth of light green foliage, the most outstanding characteristic is its early blooming habit. It may easily be had in flower less than four months from the time of sowing, and when forced under glass has been flowered in 70 days. The blooming season is long, and the long wiry stems make Orange Flare an excellent flower for cutting. It is indeed a New Flower for the People.

Price per oz., \$.85; per ¼ lb., \$3.00; per lb., \$10.00

NASTURTIIUM BODGER'S DOUBLE . Sweet Scented

GLORIOUS GLEAM HYBRIDS FINEST MIXED

Leaders in the Seed Trade have pronounced our Glorious Gleam Hybrids the most remarkable achievement of the year in the field of Plant Breeding. They are the result of our years of scientific breeding and selection for the development of this sensational new double, sweet scented Nasturtium. Coming practically one hundred per cent double (by actual count, 98.4 per cent), the magnificence of their color range is no less remarkable. To even the most critical observer, they leave nothing to be desired, whether grown in a bed or border of the garden or under glass for cut flower purposes.

Award of Merit Winner 1935 All America Selections

No. 501 NICKELTYPES \$13.00

NASTURTIIUM BODGER'S DOUBLE . Sweet Scented

GLORIOUS GLEAM HYBRIDS FINEST MIXED

The flowers are fine large, well formed sweet scented doubles, of the same type as the well known Golden Gleam. In habit of growth they also closely resemble Golden Gleam, with semi dwarf plants throwing short runners from well rounded free flowering bushes. The stems are long, and bear the flowers well above the lush green of the foliage, giving the effect of a solid mass of color. The color range includes an evenly balanced blend of brilliant shades: salmon, golden yellow, orange scarlet, cerise, cream yellow, orange, maroon, crimson, and many spotted varieties.

Price per ¼ lb., \$.30; per lb., \$1.00

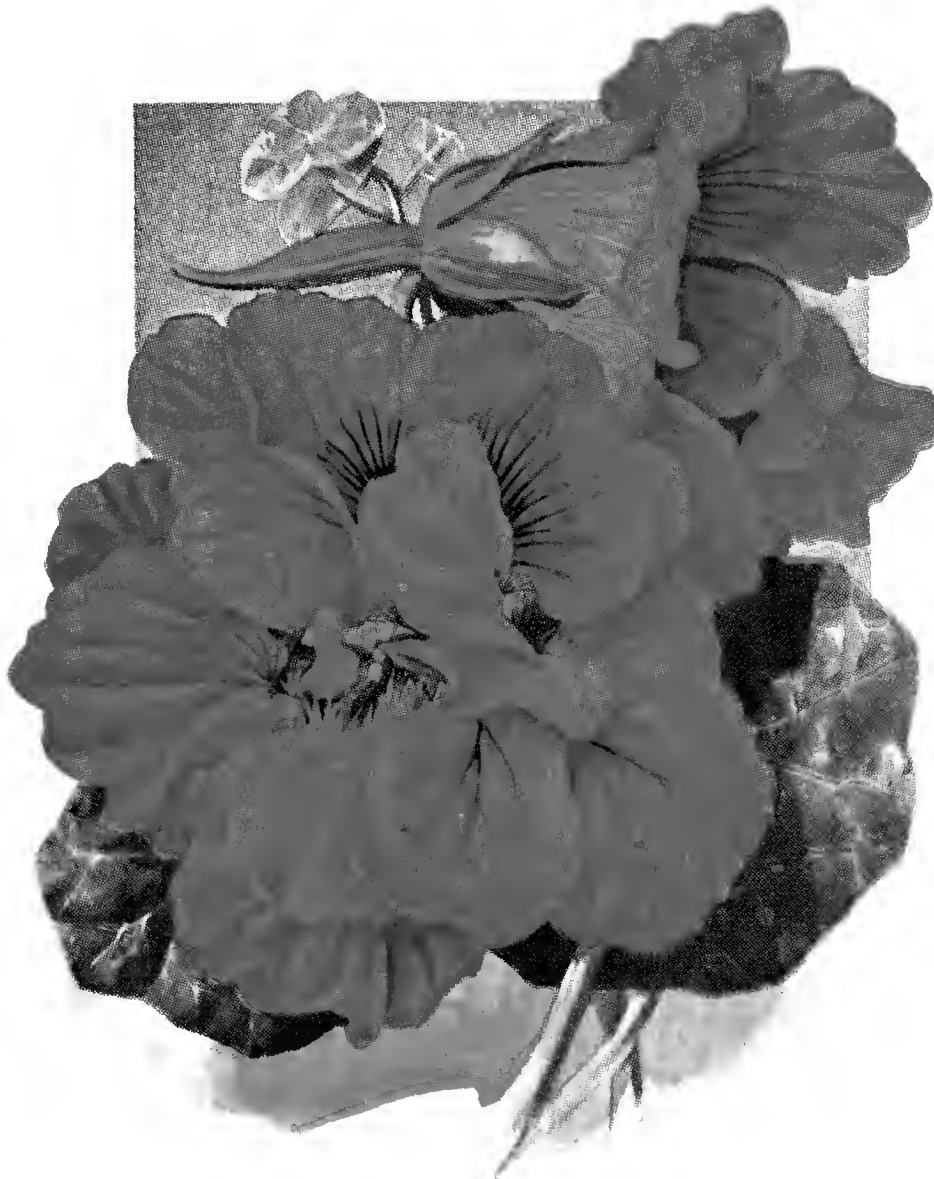

No. 504 NICKELTYPES \$11.00

NASTURTIIUM BODGER'S DOUBLE . . .

Sweet Scented Scarlet Gleam

Scarlet Gleam is the first of our introductions of companion colors to the popular Golden Gleam. It is a fiery orange scarlet in color, delightfully sweet scented, superior in type, extra large flowered, and profusely free blooming. When grown in a large block it has been likened to a huge fiery carpet spread over the ground, the most intensely dazzling color one could imagine in a flower, even more showy than the vivid golden yellow of Golden Gleam.

Gold Medal Winner 1935 All America Selections

No. 503 NICKELTYPES \$14.00

NASTURTITIUM BODGER'S DOUBLE . . .

Sweet Scented Scarlet Gleam

For cutting or garden use, Scarlet Gleam has but few equals. The flowers are large and well formed, borne profusely on long wiry stems well above the foliage and are excellent for cutting. The plants are semi dwarf, throwing short runners from well rounded bushes, but under greenhouse conditions they develop a more trailing habit. The doubleness of the flowers is caused by an overlapping of small petals toward the center of the flower, combined with the extra large outer petals. Scarlet Gleam should be in every garden.

Price per $\frac{1}{4}$ lb., \$.60; per lb., \$2.00

No. 507 NICKELTYPES \$11.00

HUNNEMANNIA Semi Double Sunlite (Bodger)

Award of Merit Winner 1934 All America Selections

Sunlite, the attractive semi double form of the well known Mexican tulip poppy, has become since its introduction two seasons ago one of the most popular garden flowers. The tulip shaped flowers with their extra band of petals on the outside rather than the inside of the cup give the appearance of being open at all times. The plants are of good habit, about two feet in height, and like a sunny position in a well drained border.

Price per 1/4 lb., \$2.25; per lb., \$7.50

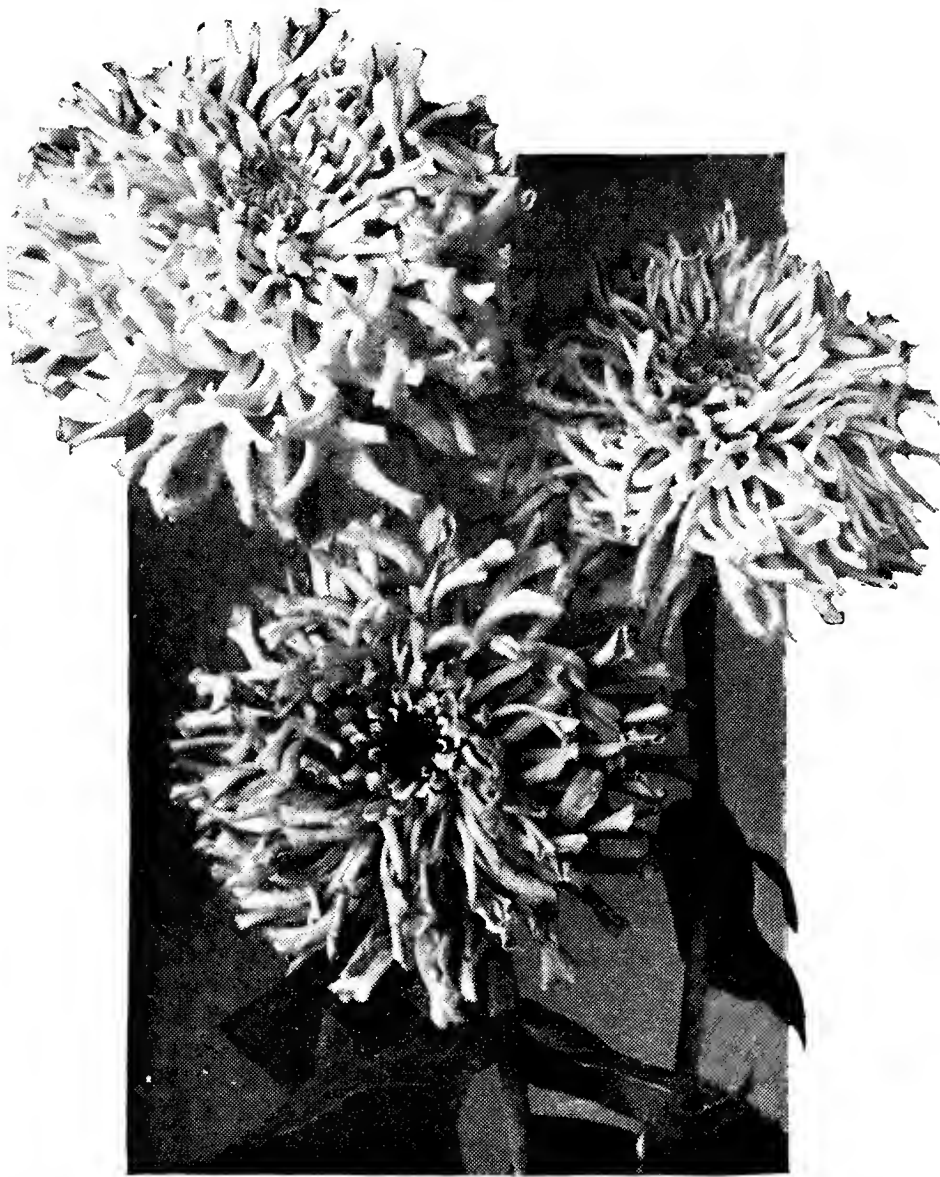

No. 508 NICKELTYPES \$11.00

ZINNIA CROWN O' GOLD Desert Gold (Bodger)

Desert Gold, as shown in the accompanying illustration, is a variety of dual tone beauty comprising the light and deeper hues of gold, each petal overlaid at the base with a deeper golden yellow. These yellow shades were selected from our fascinating Crown O' Gold Mixture. The plants are from two and a half to three feet in height, bearing a generous quantity of the large well formed flowers which are equally effective in daylight or under artificial lights. Those who appreciate the finest in Zinnias will welcome Desert Gold.

Price per oz., \$1.00; per ¼ lb., \$3.60; per lb., \$12.00

Zinnia Fantasy Finest Mixed

No. 67 ELECTRO \$2.40

ZINNIA FANTASY Finest Mixed (Bodger)

Award of Merit Winner 1935 All America Selections

Fantasy is the most fascinating new Zinnia type introduced to the flower world in many years. The very informal, shaggy appearing flowers are graceful and interesting, quite distinct from the stiff, formal zinnias to which we are accustomed. The rounded medium sized flowers are composed of a mass of shaggy ray-like petals which give a delicate and refined appearance, large enough to satisfy the desire for mass of color, yet small enough to lend themselves gracefully to flower arrangement. The color range includes the brightest shades of reds, yellow and orange, as well as the popular pastel pinks and cream.

Price per oz., \$.85; per 1/4 lb., \$3.00; per lb., \$10.00

Antirrhinum Rust Proof Strain

No. 70 ELECTRO \$2.55

ANTIRRHINUM RUST PROOF STRAINS

Certificate of Honor 1935 All America Selections

Of major importance to all who deal in flowers or flower seeds is the work being done on the Antirrhinum for the production of Rust Proof strains. Too much credit cannot be given the Agricultural Experiment Station of the University of California for the pioneering work they have done in this field, nor for the fine spirit of cooperation they have shown toward the Seedsmen of California.

In our University of California De Luxe Mixture we are proud to offer the University of California Mixture supplemented by the addition of a wide range of colors not found in the original mixture. Our De Luxe Mixture contains a higher percentage of the more desirable light colors than will be found in other mixtures now on the market. Prominent among these shades are the popular canary yellow, rose pink, salmon pink and white, nicely balanced with the usual run of red and orange shades comprising the University Mixture. These additional colors have resulted from our own crosses for named varieties, one or more of which we expect to offer in our August Novelty List. Our De Luxe Mixture has been proven to be 75% rust proof.

University of California De Luxe Mixture,

Price per oz., \$2.00; per 1/4 lb., \$7.50; per lb., \$25.00

Larkspur Stock Flowered Rosamond

No. 65 ELECTRO \$2.55

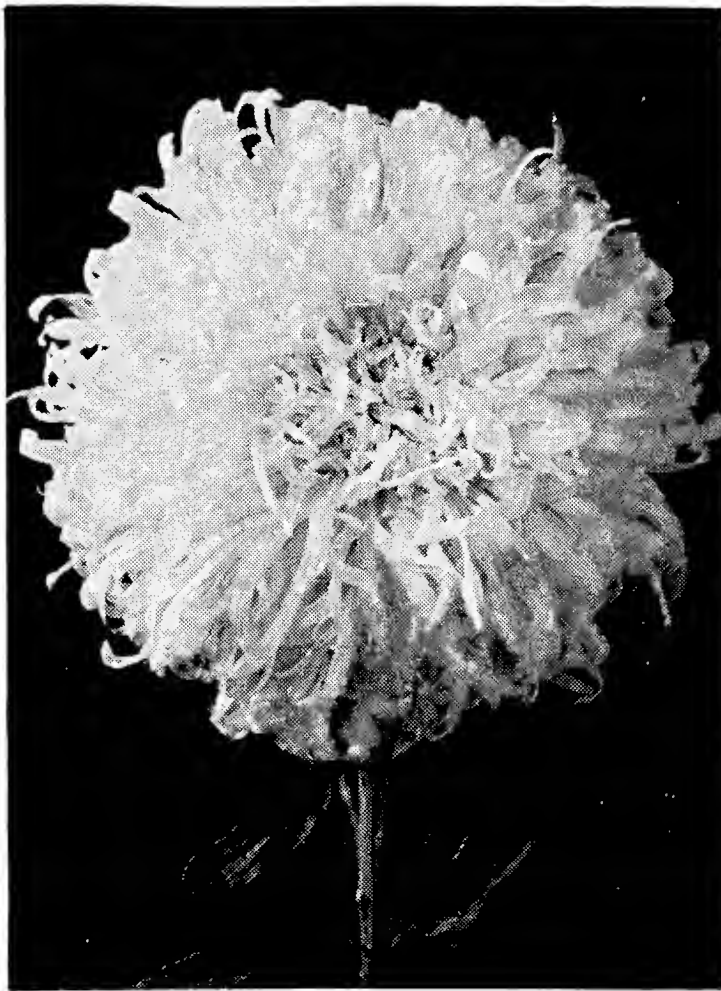

LARKSPUR STOCK FLOWERED ROSAMOND (Bodger)

Gold Medal Winner 1934 All America Selections, Award of Merit

Royal Horticultural Society 1934

Granted an Award of Merit by the Royal Horticultural Society of London, and a Gold Medal by the All America Selections, Rosamond has been acclaimed the most distinct Larkspur to be introduced in many years. It is two weeks earlier than other Stock Flowered varieties, giving a good cut before other Larkspurs are available. The height is exceptionally uniform, and the plants bear numerous good spikes heavily covered with fully double flowers. The color is new and distinct, a pure deep rose self, holding well until out of bloom. The individual florets are large and very double, evenly and closely placed on the stems.

Price per 1/4 lb., \$2.25; per lb., \$7.50

Aster Super Giant Los Angeles

No. 87 ELECTRO \$2.00

ASTER SUPER GIANT LOS ANGELES (Howard-Bodger)

Award of Merit Winner 1934 All America Selections

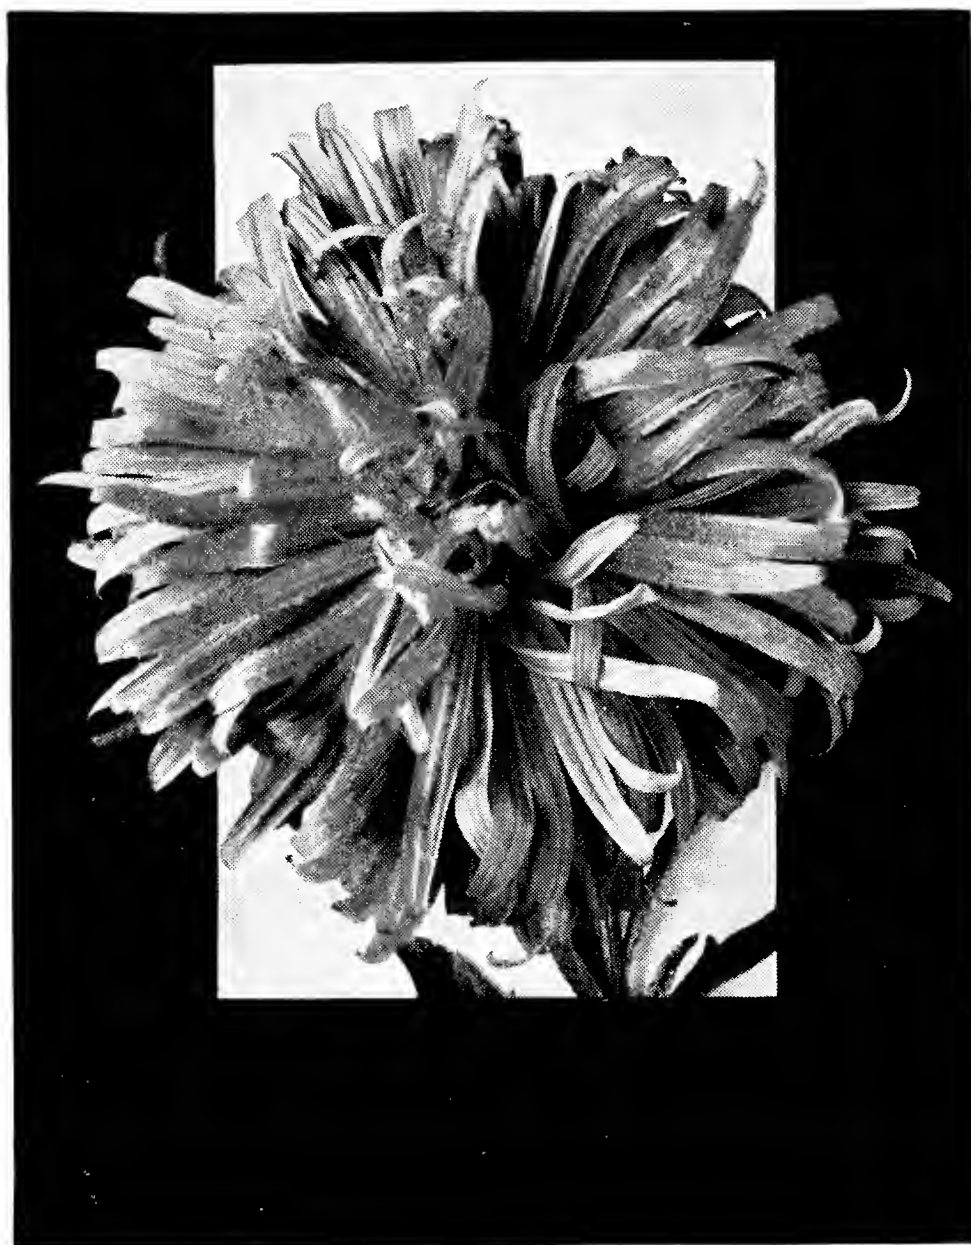

Los Angeles is the largest and most fully double Aster known. The flowers, six to eight inches across, are a lovely soft shell pink blending to a creamy pink at the center. The plants are entirely non-lateral, with six to eight long stems per plant. For those who want the finest Aster yet developed, we heartily recommend Los Angeles. This is not a wilt resistant variety.

Price per oz., \$1.65; per 1/4 lb., \$6.00; per lb., \$20.00

ASTER CREGO VENUS (Bodger)

Distinct from other Aster colors, Venus is a delicate silvery salmon pink, filling a niche in the color scale which has long been vacant. The flowers, while fundamentally of the Crego type, have a tendency to form more of a ball, with an upward tilt to the petals which is unique and interesting. This is not a wilt resistant variety.

Price per oz., \$0.85; per 1/4 lb., \$3.00; per lb., \$10.00

Aster Crego Egyptian Rose

No. 72 ELECTRO \$2.55

ASTER CREGO EGYPTIAN ROSE (Bodger)

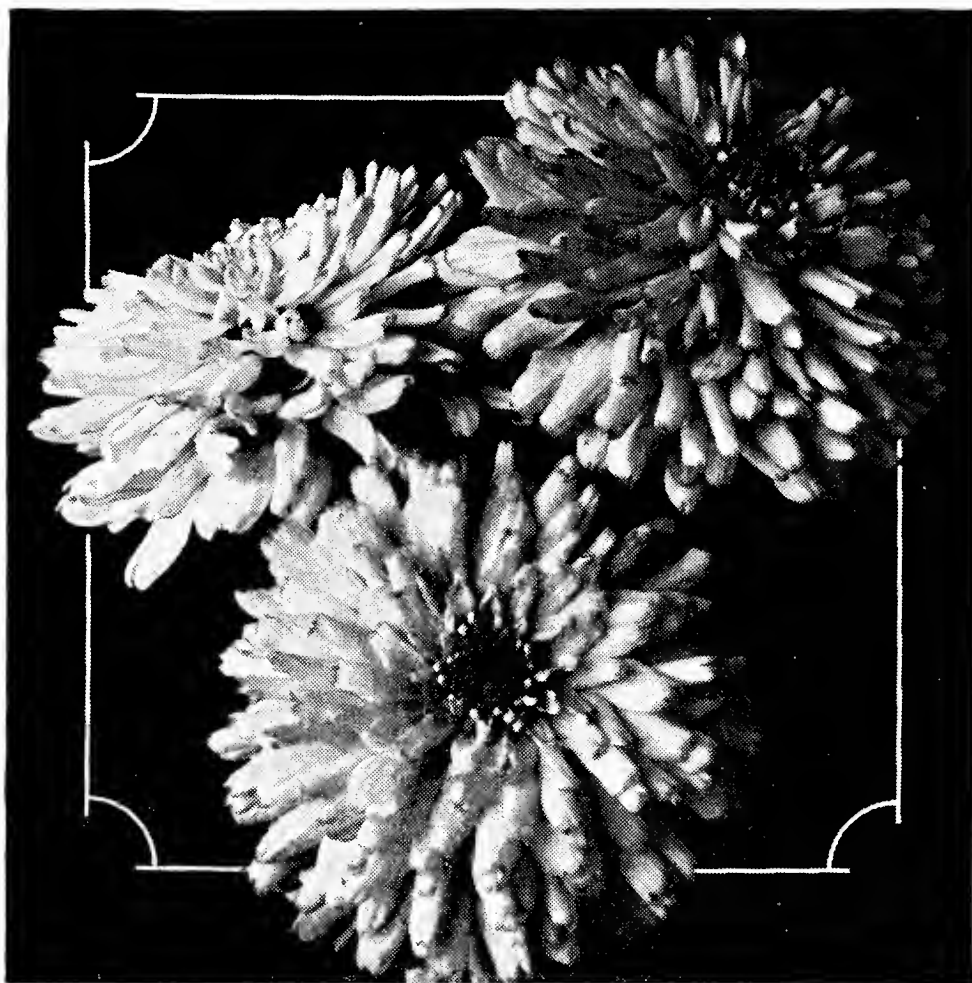

Egyptian Rose, a new shade in Asters, is one of the loveliest colors one can imagine. Deep cinnabar rose, high-lighted with a coppery sheen, extremely double and full petaled, it is a gorgeous thing. The plants are robust growing, branching, about two and a half feet in height, and very free flowering. We highly recommend Egyptian Rose. This is not a wilt resistant variety.

Price per oz., \$0.85; per ¼ lb., \$3.00; per lb., \$10.00

ASTER CREGO HEATHER BOUQUET (Bodger)

Those who admire the so-called "art shades" so much in vogue at present will enthusiastically welcome our new Heather Bouquet Aster. It is composed of a fancy mixture of pastel lilac and mauve shades, ranging from light orchid to deep lilac tones. It is of the Crego type, free flowering and of robust habit. This is not a wilt resistant variety.

Price per oz., \$0.85; per ¼ lb., \$3.00; per lb., \$10.00

Zinnia Pumila Picotee Delight Golden Ray

No. 68 ELECTRO \$2.20

ZINNIA PUMILA PICOTEE

DELIGHT GOLDEN RAY (Bodger)

This new golden orange Zinnia in the Pumila Picotee Delight type is one of the medium sized varieties demanded by the trend of the times. The tip of each petal of the golden orange flowers is outlined with a delicate edging of brick red, a touch which brings out the full beauty of the flower. The plants are about two feet in height, and very free flowering.

Price per 1/4 lb., \$3.00; per lb., \$10.00

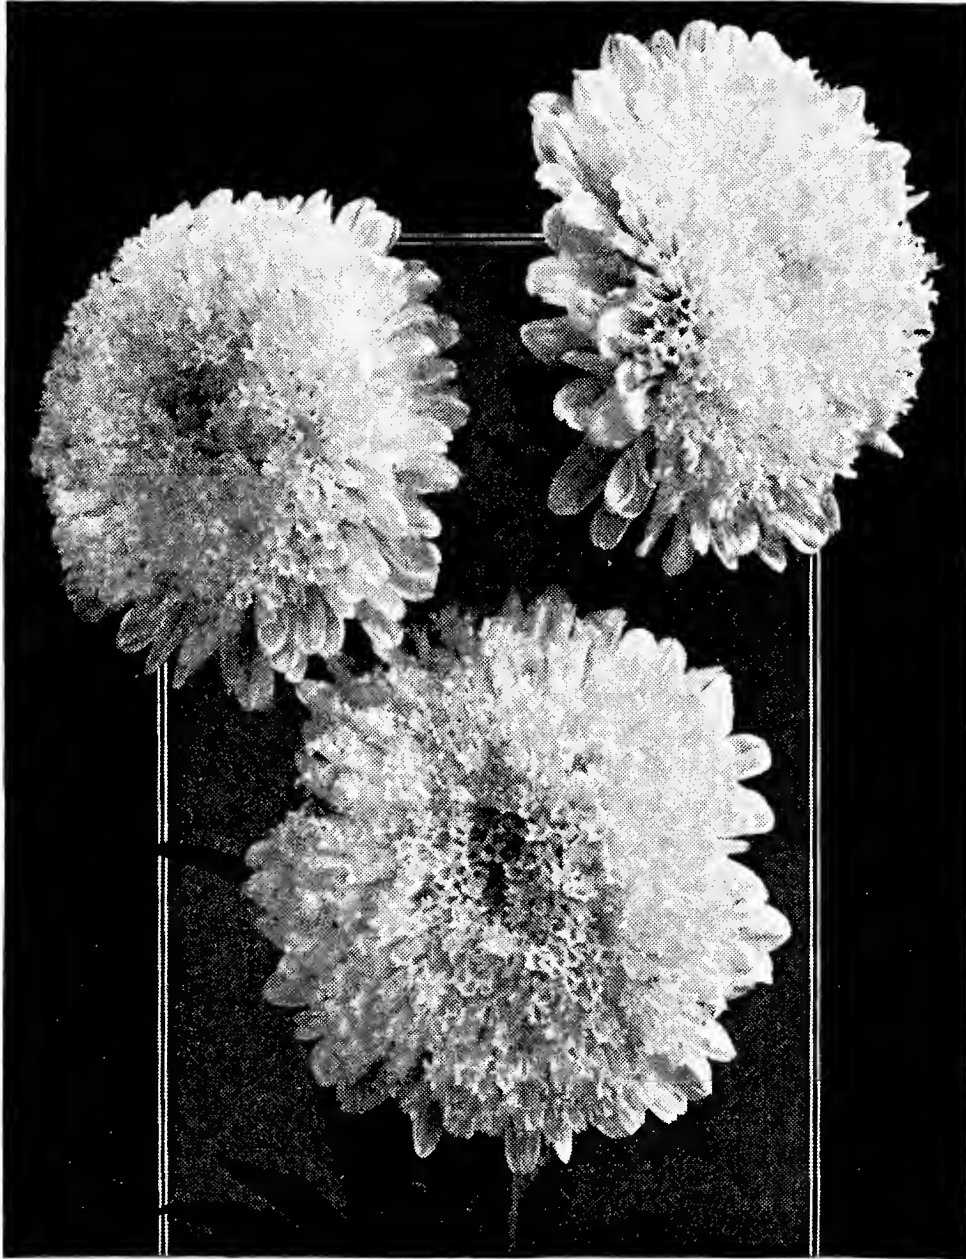

ASTER WILT RESISTANT STRAINS (Bodger)

Award of Merit Winner 1933 All America Selections

The most pretentious Aster improvement program we have undertaken is the development of wilt resistant strains. Although not novelties in the true sense of the word, we consider these Wilt Resistant Asters among the most noteworthy introductions of our long experience in the seed business.

The Aster wilt disease is caused by a parasitic fungus, *Fusarium conglutinans* var. *callistephi*, which is carried on the seed, on cultivating implements and in the soil. Once introduced into the soil, the fungus persists indefinitely, and attacks any Asters which may be planted there at any time thereafter.

Only through the use of resistant stocks is it possible successfully to grow Asters more than one year in the same soil.

Aster Wilt Resistant Aurora Golden Sheaf

No. 73 ELECTRO \$2.55

ASTER WILT RESISTANT AURORA GOLDEN SHEAF (Bodger)

We strongly urge you to feature Golden Sheaf in your next specialty list. It is the deepest yellow Aster yet offered, and the only one that is wilt resistant. The flowers are fully double, with an attractive crest-like center, of good substance and fine depth of petal. It has all the characteristics of the Aurora type of Aster so popular now with florists. The flowers last well when cut, and are excellent shippers.

Price per oz., \$1.25; per ¼ lb., \$4.50; per lb., \$15.00

Dianthus Laciniatus Splendens

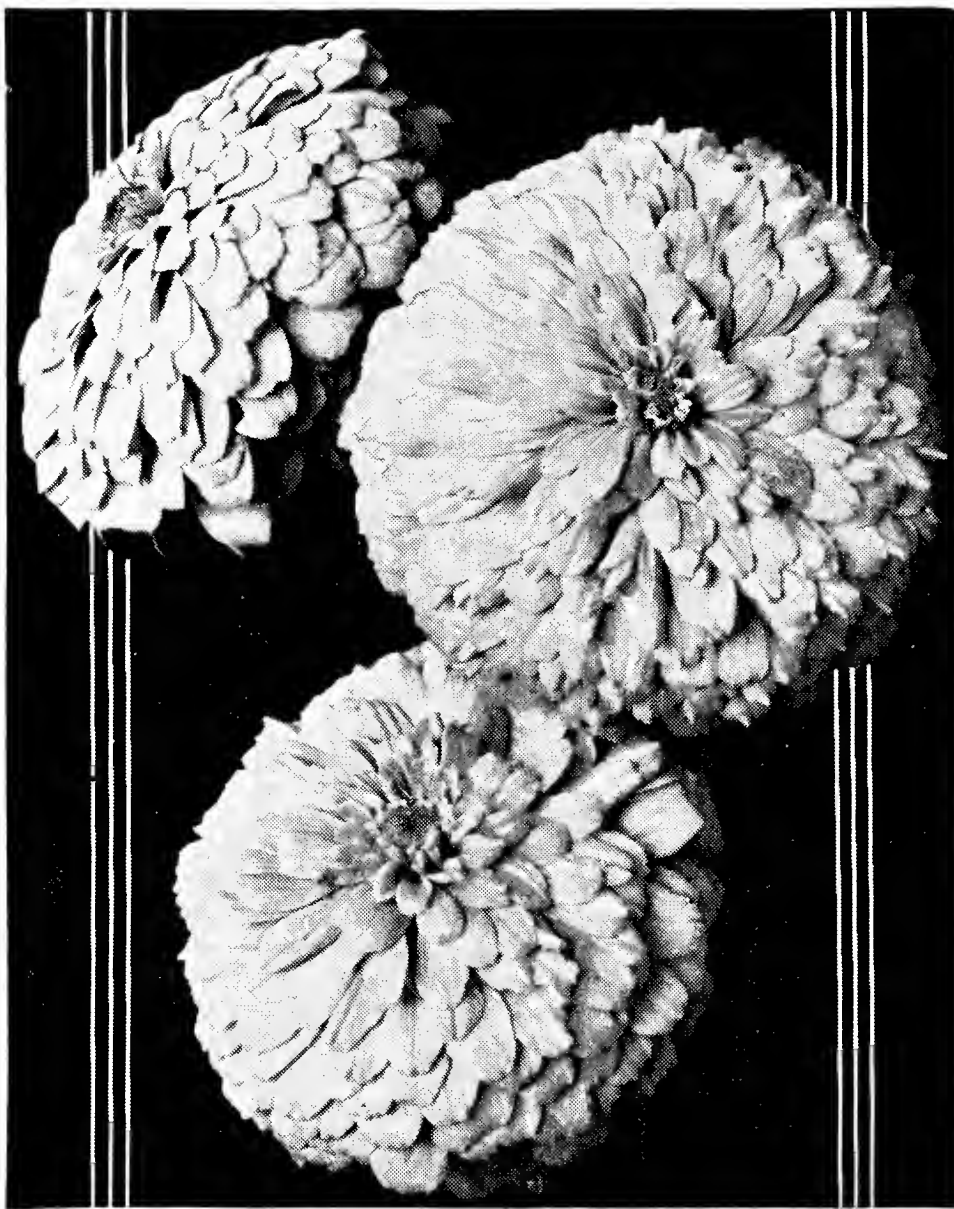

No. 14 ELECTRO \$2.35

DIANTHUS LACINIATUS SPLENDENS

Special Mention 1935 All America Selections

The most striking Dianthus we have ever offered, it has been considered worthy of Special Mention by the All America council. Free flowering and easily grown, the Dianthus family has for years furnished us with some of our most popular border subjects. The sterling novelty, Laciniatus Splendens comprises extra large single flowers of brilliant crimson, boldly contrasted with a glistening white eye, borne profusely on neat dwarf compact plants.

Price per 1/4 lb., \$2.25; per lb., \$7.50

Zinnia Early Wonder Finest Mixed

No. 69 ELECTRO \$2.55

ZINNIA EARLY WONDER FINEST MIXED (Bodger)

Some years ago we introduced the Early Wonder type of Zinnia in two colors, Fiery Salmon Cerise Pink and Rose Pink. We are now enlarging this color range with the introduction of a mixture, which includes many new shades of orange, reds, lavender and pinks. The plants are from twelve to fifteen inches high with a profusion of medium sized flowers and very little foliage. They are very early flowering and require but little space in the greenhouse or garden.

Price per oz., \$0.85; per ¼ lb., \$3.00; per lb., \$10.00

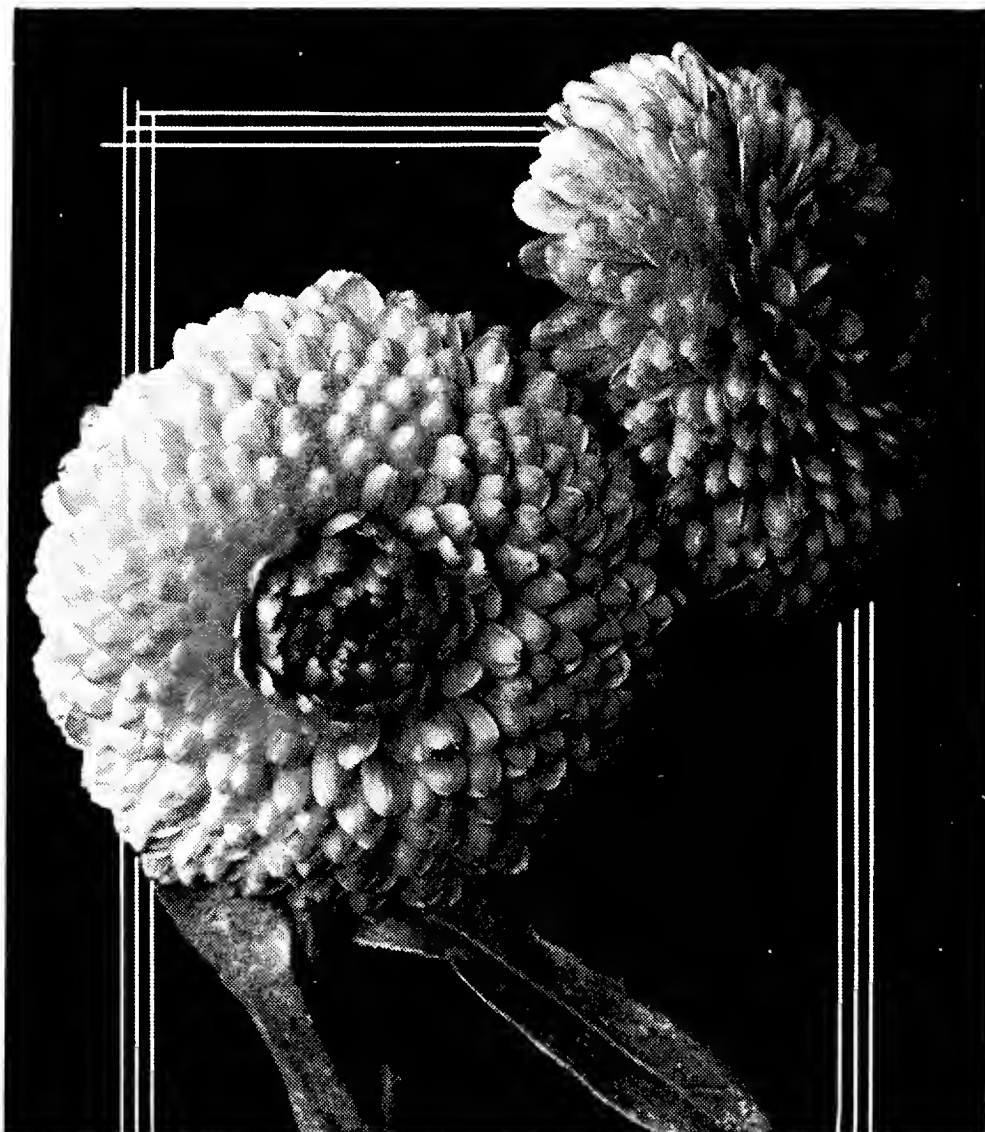

Calendula Bodger's Pastel Bedding Mixture

No. 77 ELECTRO \$2.55

CALENDULA BODGER'S PASTEL BEDDING MIXTURE

Designed especially for the home garden, this mixture contains a balanced combination of the lighter shades of Calendulas in the dwarfier growing types. Many new shades of apricot, cream and white are included, as well as the better known orange and lemon. There is also a novel assortment of flower types. Especially adapted for border use, the stems are long enough to use the flowers for cutting as well.

Price per $\frac{1}{4}$ lb., \$0.75; per lb., \$2.50

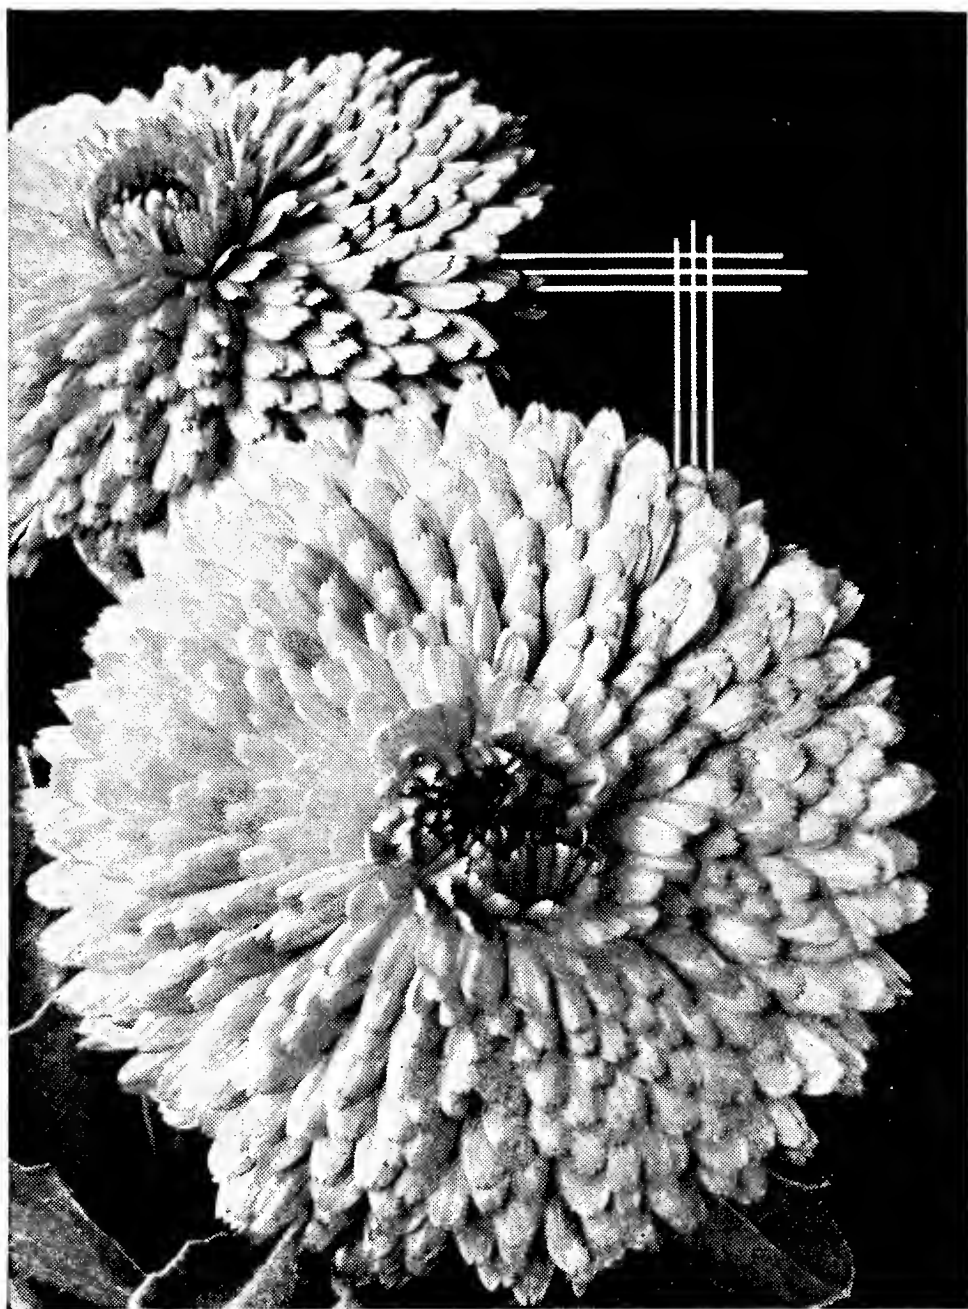

Calendula Jewel

No. 76 ELECTRO \$2.40

CALENDULA JEWEL

A real jewel in the Calendula group, the new variety Jewel is one of the finest introduced in the past few years. The flowers are deep orange in color, in a rounded shape, with good form and good depth of petal. The plants are semi-dwarf and free flowering, equally desirable for both bedding and cut flower use.

Price per $\frac{1}{4}$ lb., \$0.90; per lb., \$3.00

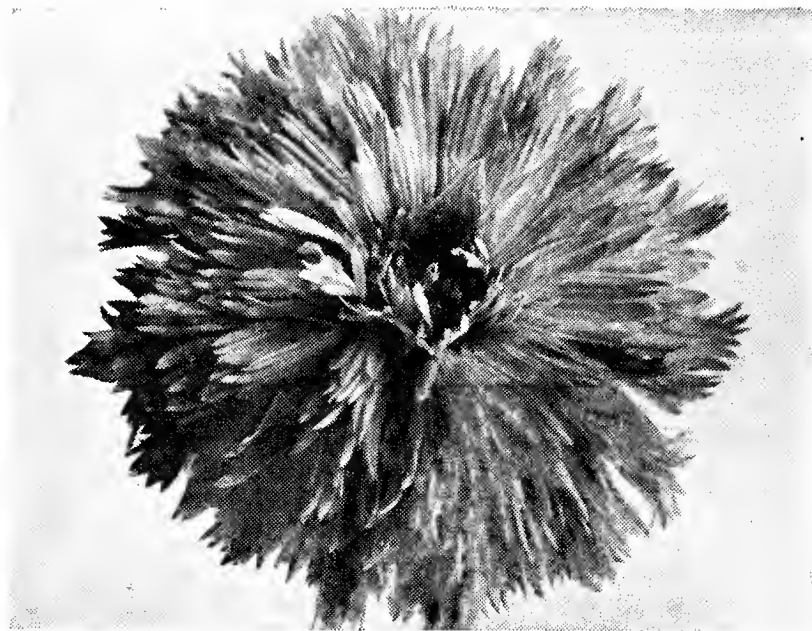

Calendula Campfire

No. 82 ELECTRO \$2.55

CALENDULA CAMPFIRE (Bodger)

One of our many novelty introductions which has stood the test of time. Campfire is still so popular that we thought it wise to call your particular attention to it as a forcing variety. One of the early florists' forcing varieties, it is still one of the best. Dark orange, high lighted with a scarlet sheen, it is unique in its class.

Price per 1/4 lb., \$0.90; per lb., \$3.00

Calendula Orange Shaggy

No. 125 ELECTRO \$2.00

CALENDULA ORANGE SHAGGY

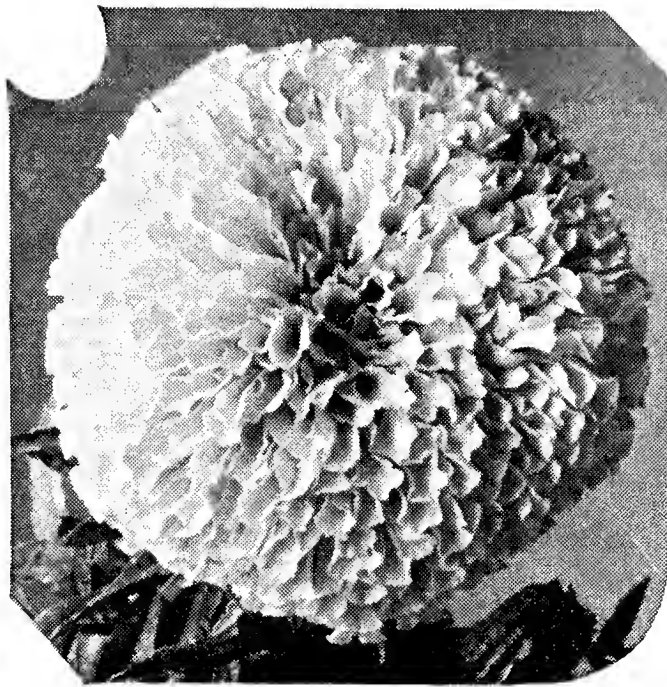

Calendulas in recent years have enjoyed a decided revival of interest. Many new colors have been introduced in the ordinary double form, and several new and interesting flower types have been developed. One of the most interesting, and certainly the most distinct of these new types is the new lacinated petaled type, Orange Shaggy. Winner of a Gold Medal in the 1935 All America Selections, it is destined to become one of our most popular garden flowers. Deep orange in color, exceedingly graceful and informal in appearance, it is a striking contrast to the formal Calendulas in general use. It is excellent for use both in the garden, and for cutting.

Price per $\frac{1}{4}$ lb., \$1.50; per lb., \$5.00

PETUNIA RUFFLED NANA COMPACTA MARTHA WASHINGTON

Petunias have also enjoyed great popularity in recent years. The focus of interest lately has centered on the dwarf growing, compact types, of which the new Martha Washington ushers in an entirely new version. The plants are about nine inches tall, in a perfect ball effect, actually covered with dozens of the delicately ruffled medium sized flowers. The color itself is an interesting combination, blush pink at the edges, deepening to dark violet in the throat, with heavy veining. It comes exceedingly true to color and type, and is excellent for use as a bedding, border, window box or pot plant. Award of Merit, 1935 All America Selections.

Price per $\frac{1}{16}$ oz., \$1.50; per $\frac{1}{4}$ oz., \$4.50; per oz., \$15.00

Marigold Mexican Dwarf Orange

No. 126 ELECTRO \$1.85

MARIGOLD MEXICAN DWARF ORANGE

In our trials last season we considered this variety outstanding among all new strains we had under observation. It is unlike any other Marigold now known, semi dwarf in habit, freely branched, and heavily laden with quantities of its unique semi tubular petaled flowers of bright orange. We consider Mexican Dwarf Orange the outstanding new Marigold for this season, and highly recommend that you plan on featuring it in your 1936 list. As seed will not be over plentiful it is wise to place your contract order at once to avoid disappointment at time of delivery.

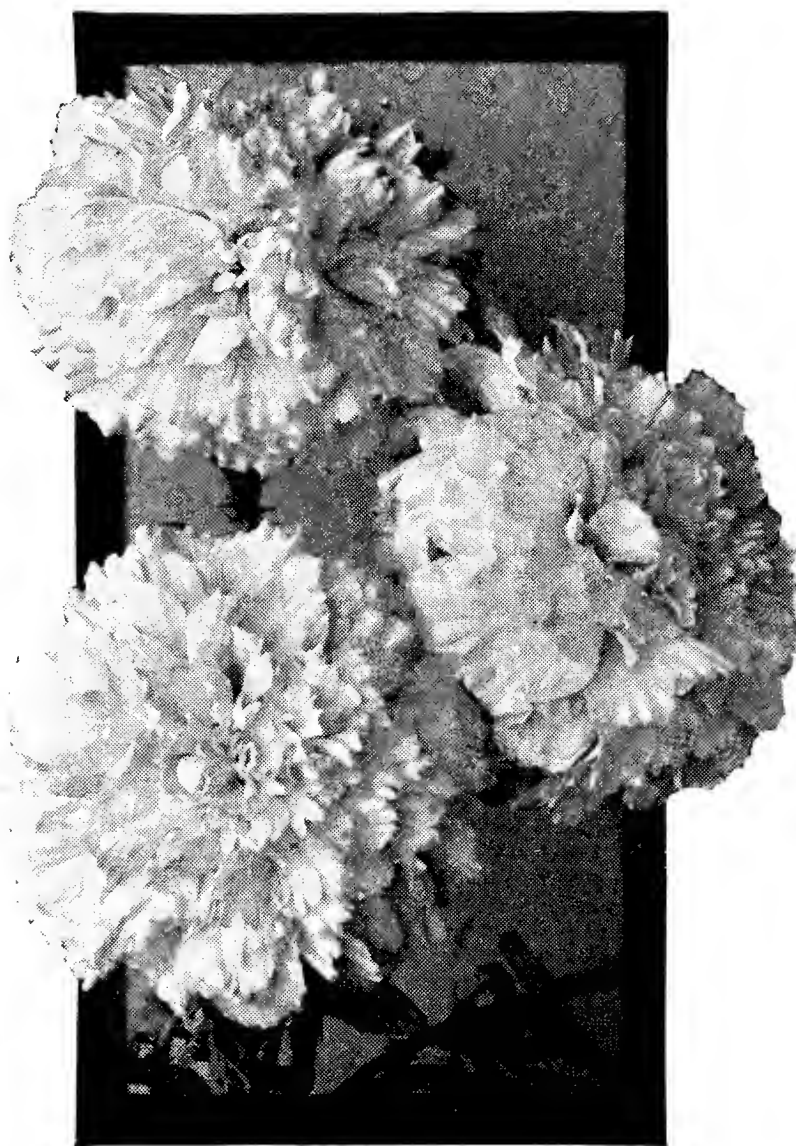

Price per $\frac{1}{4}$ lb., \$3.00; per lb., \$10.00

MARIGOLD YELLOW SUPREME

Gold Medal Winner 1935 All America Selections

Heralded as a companion to the popular Guinea Gold, Yellow Supreme does in many respects resemble it. Like Guinea Gold, it is very free flowering, compact and somewhat pyramidal in habit, two to two and a half feet tall, bearing loosely ruffled, carnation flowered blossoms. The color is a creamy lemon yellow, and the flowers are somewhat larger than Guinea Gold.

Price per $\frac{1}{4}$ lb., \$2.25; per lb., \$7.50

Marigold African Dwarf Double Queen Strain

No. 127 ELECTRO \$2.25

MARIGOLD AFRICAN DWARF DOUBLE QUEEN STRAIN

This new strain of African Marigolds is admirably adapted for bedding use. The plants are sturdy and free flowering, forming a veritable pyramid of blooms. The flowers are from two to three inches across, with rather flat petals, giving a novel effect of softness. Golden Queen is a fine golden yellow, Orange Queen deep orange, Primrose Queen light primrose yellow, and Yellow Queen clear lemon yellow. We highly recommend all these varieties.

Prices will be found on pages 98 and 99

Marigold African Beauty Strain

No. 128 ELECTRO \$2.00

MARIGOLD AFRICAN BEAUTY STRAIN

Special Mention 1935 All America Selections

These new Beauty Marigolds lend an interesting variation to the large flowered tall double African group. The flowers, of the so-called "Crusells" type, are rather flat in appearance, as contrasted to the ball-like effect of the *Fistulosa* sorts. The petals are semi-quilled, rather broad, and the flowers are very double. The plants reach a height of two and a half feet, and are well covered with flowers. The strain is early flowering, fine for garden or cutting use. Golden Beauty is a golden yellow, and Yellow Beauty a clear lemon yellow.

Price per 1/4 lb., \$2.25; per lb., \$7.50

Venidium Fastuosum Hybrids

No. 129 ELECTRO \$2.25

VENIDIUM FASTUOSUM HYBRIDS

Three years ago an excellent new flower from Africa burst upon the horticultural horizon, and was enthusiastically acclaimed by plant lovers as a coming cut flower. This was *Venidium Fastuosum*, the deep orange Monarch of the Veldt. Now there has been developed a strain of hybrids of this *Venidium* which is even more attractive than the original orange. The plants have the same habit and characteristics as the type, free flowering, two to three feet tall, and blooming over a long period. The color range is varied and very interesting—apricot shades, creamy white, pure white, salmon shades, canary yellow, golden yellow and the well known orange. We find that the hybrids stand up much better in extreme heat than the original orange.

Price per oz., \$3.35; per ¼ lb., \$12.00; per lb., \$40.00

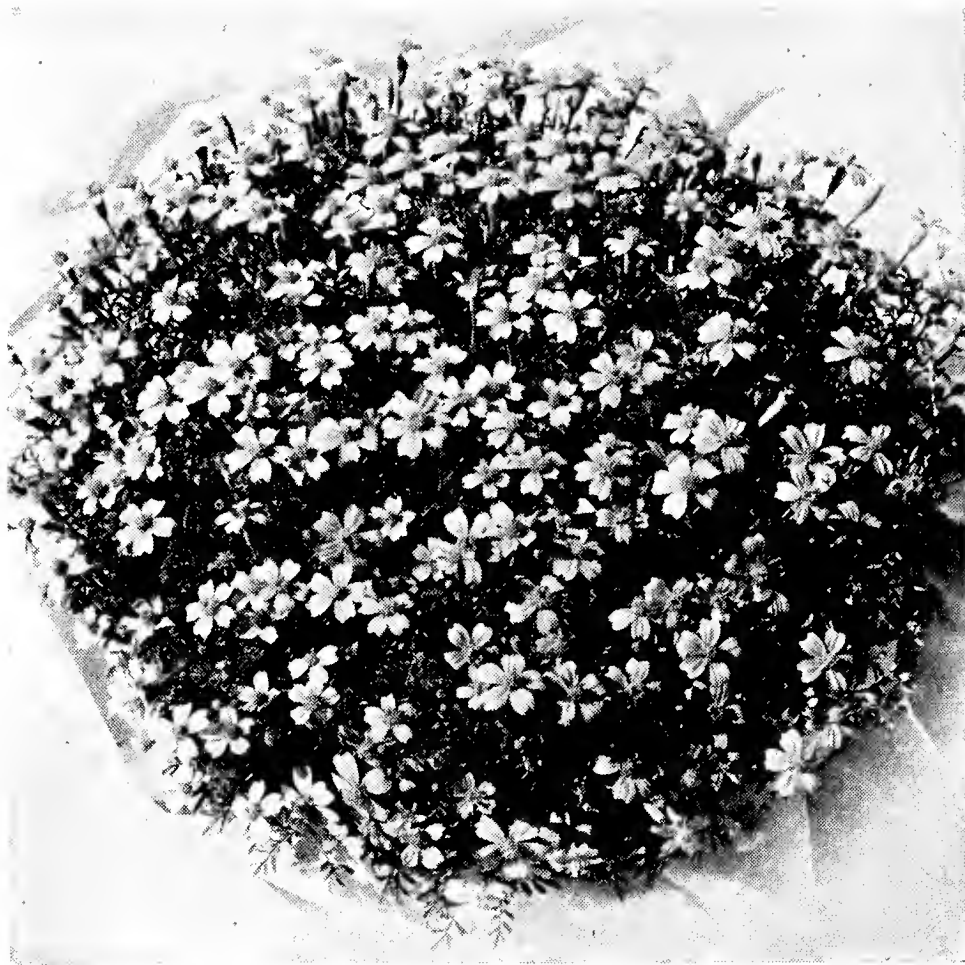

Gazania Splendens Hybrid Grandiflora

No. 81 ELECTRO \$2.40

GAZANIA SPLENDENS HYBRIDA GRANDIFLORA

A very showy half hardy perennial which flowers the first year from an early sowing. The plants are low growing, with a goodly quantity of long stemmed, showy daisy-like flowers in brilliant shades of orange and yellow, as well as cream and white. Each flower is marked at the base of the petals with black, brown, or green spots. It is fine for summer bedding or border work, doing best in a sunny location.

Price per oz., \$1.65; per 1/4 lb., \$6.00; per lb., \$20.00

Marigold Tagetes Signata Pumila Little Giant

No. 7 ELECTRO \$2.30

MARIGOLD TAGETES SIGNATA PUMILA LITTLE GIANT (Bodger)

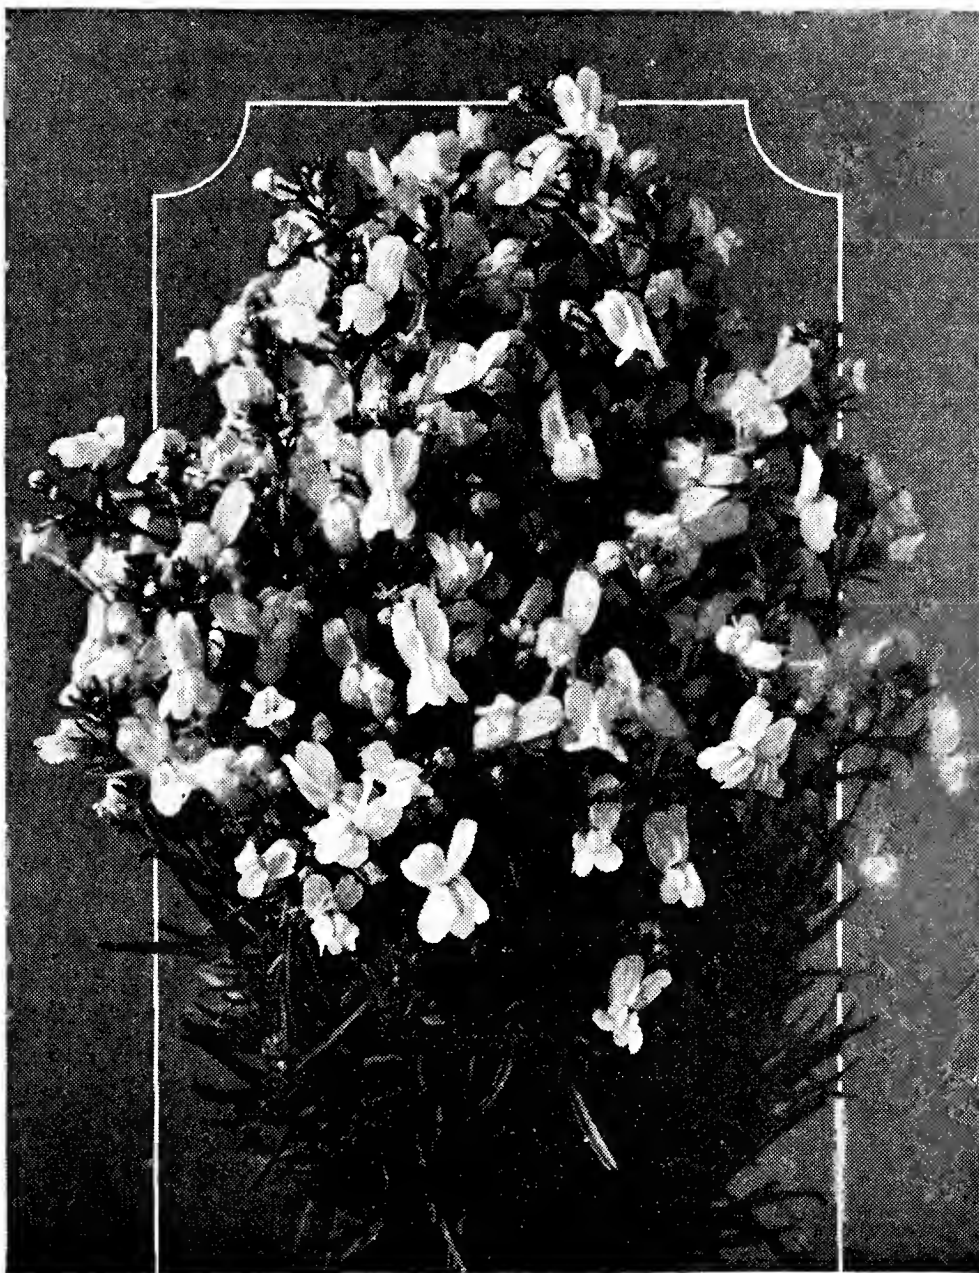

Little Giant is the highest development yet attained in the development of a neat, dwarf, really compact strain of the Signata Pumila Marigold. It is very dainty, with slender fernlike foliage and an abundance of gay, single, deep orange flowers on plants which are only four to six inches high with a spread of eight to ten inches. Those who are seeking a dwarf compact edging plant of this sort will do well to grow Little Giant.

Price per oz., \$0.85; per ¼ lb., \$3.00; per lb., \$10.00

ARMERIA FORMOSA LARGE FLOWERED HYBRIDS

For some time past there has been an active demand for a mixture of the dark, bright colors in Armeria, while the strains available up to now have been composed mostly of the less attractive light shades. This new strain gives us the shades of bright pinks, coral red, light red, violet and purple which have been lacking. The numerous flowers are large and ball shaped, borne on strong, 16 inch upright stems, excellent for cutting besides making a gay splash of color in the rockery in early summer. Perfectly hardy and of the easiest culture, we recommend this Armeria to all gardeners.

Price per oz., \$7.50

Linaria Maroccana Fairy Bouquet

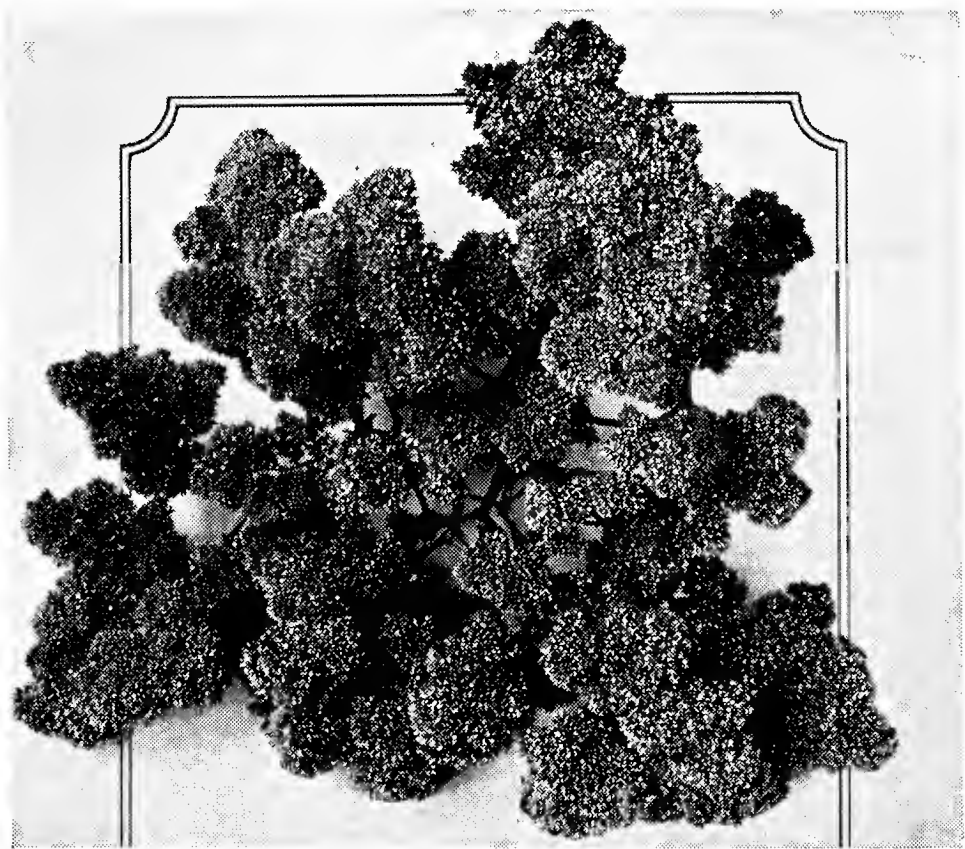

No. 79 ELECTRO \$2.55

LINARIA FAIRY BOUQUET

Gold Medal Winner 1934 All America Selections

With the introduction of the charming variety Fairy Bouquet, the Linaria which has always enjoyed a certain popularity, has jumped up into the class of leaders for the day. The free flowering plants are very compact, about eight inches in height, covered with a mass of dainty snap-dragon-like flowers which are larger than the type. The color range includes all the popular pastel shades.

Price per oz., \$1.65; per 1/4 lb., \$6.00; per lb., \$20.00

No. 82 ELECTRO \$2.55

CHORIZANTHE PALMERI (TURKISH RUGGING)

A new subject for the border or rock garden. This easily grown annual forms a dense mat of statice-like flowers of a delicate pink which blends beautifully with the dull green foliage, turning in early fall to a charming shade of autumn brown. It grows about 8" and has a spread of 12" to 18".

Price.....per ¼ lb., \$1.50 per lb., \$5.00

No. 124 ELECTRO \$2.10

IPOMEA DOUBLE ROSE MARIE (Bodger)

Rose Marie, introduced by us three years ago, is an early, free flowering, clear deep rose double flowered Ipomea which makes a quick growth well covered with flowers. As the flowers are double, they give the appearance of being open even after the other Ipomeas in the garden have closed for the day.

Price.....per ¼ lb., \$0.90 per lb., \$3.00

ASTERS *a*

LARGE FLOWERED, HEAVY STEMMED, FLORISTS' SPECIAL VARIETIES

SUPER GIANT *f*

This is the largest and most fully double Aster class known. The flowers are from 6" to 8" across, with full petaled, graceful, interlacing petals. Plants are about 2' tall, with six to eight long, non-lateral stems per plant. "Los Angeles" is the first color in this group. Watch for our August novelty list for additional varieties.

	Per oz.	Per ¼ lb.	Per lb.

GIANT MAMMOTH PAEONY FLOWERED *f*

A superb florist strain, with immense, fully double flowers resembling the Beauty type, borne on long, stout non-lateral stems. They are admirably adapted to shipping, as the compactly placed petals give substance and keeping qualities to the flowers. The plants are 2½'-3' tall, blooming with the Giants of California.

SUNSHINE TYPE FLOWERS

IMPROVED NEW GIANT CALIFORNIA SUNSHINE *f* (Howard-Bodger)

This fascinating new Aster type, rightly called the most beautiful in the world, is fast becoming a sales leader for the better class florist trade. The flowers, 4"-5" across, are composed of a single row of loosely placed outer petals which contrast with the unique yellow quill-like center disc. Stems are long and heavy, on plants from 2'-3' in height.

ASTER WILT

We have had so many inquiries as to just what wilt resistance in Asters really is that we feel a few notes on the subject are in order at this time.

The so-called wilt disease of Asters is caused by a specific parasitic fungus, which may attack the plant at any stage in its growth from the seedling to the seed-producing age. The spores of the fungus may be carried on Aster seed and on inert matter with the seed, on the implements used in preparing the soil, and in the soil itself. When once introduced into the soil, it persists indefinitely and makes the land "aster sick," that is, whenever an ordinary strain of Asters is planted into that particular soil at any time thereafter, the wilt fungus living in it will attack the plants and they will die off at some stage of their growth.

A wilt resistant strain of Asters, however, is one which, although planted on the very sickest soil available, will withstand the attacks of the fungus and develop into strong, healthy plants. Just as some people or animals withstand the attacks of certain diseases, while others become sick at the first sign of an epidemic, so the resistant strains of Asters will withstand the attack of the wilt fungus, while the non-resistant strains will succumb.

It is not known just what the difference in composition is in the resistant strain—whether it be a different physiochemical set-up, an increased acidity of the cell sap, the presence of toxic substances in the pigment compounds, or what it may be. The fact remains, though, that the factor of resistance to the fungus is present. We wish to call your attention to the fact that these Asters should be sold as wilt resistant, and not as disease resistant. There seems to be an erroneous impression prevalent that the resistance refers to Aster Yellows and other Aster diseases, besides the fusarium wilt. Unfortunately, this is not the case. So far there is no known method of combating the Yellows disease, except by growing the plants in an enclosed space, thereby keeping the leaf hoppers which carry the yellows virus from reaching the plants.

JOHN BODGER

Founder of our firm and originator of Dahlia Flowered Zinnias

ZINNIAS *a*

Ever since our founder began his historic work on Zinnias, the name Bodger has been closely associated with this popular flower. Our first major introduction was the Dahlia Flowered strain, an advancement which entirely changed the Zinnia trend. This, the first of the really large show type of flower, was followed in a few years by our later introduction, the California Giant type.

Realizing the demand also for the smaller flowered, cutting type, we concentrated our efforts later to this end. Our introductions along this line have been numerous, including the popular Fantasy Mixture, the Picotee Delight and Early Wonder types, Crown O' Gold, new colors in the Pumila Dwarf Double and Lilliput types, and improvements in all other existing varieties.

Zinnia Dahlia Flowered Old Rose
No. 26—ELECTRO \$2.35

BODGER'S GOLD MEDAL DAHLIA FLOWERED *f* (Bodger)

The Dahlia Flowered strain was introduced by us in 1919, and all the colors have been of our introduction at various times since then.

The plants are of medium height, 2½'-3', very robust, bearing many long stems of the fully double, huge flowers, which resemble the show type of Dahlia.

We have marked the most popular varieties with an asterisk (*).

	Per ¼ lb.	Per lb.

LARKSPUR GIANT IMPERIAL af			
Tall, upright, compact, basal branching in habit, the Giant Imperials have superseded all other types of Larkspurs for florists' and general garden use. The delphinium like spikes of double flowers, carried on stems 4'-5' long, are compactly placed on the upright growing plants, requiring only about one-half the space needed for the old stock flowered type of Larkspur.

STRAWFLOWER (See *Helichrysum*)

SUMMER CYPRESS (See *Kochia*)

SUNFLOWER (See *Helianthus*)

NOTES ON SWEET PEA CULTURE

The EARLY SPENCER varieties were originally developed for the florist trade, to be grown in greenhouses during the winter months where the summer flowering varieties do not do well. Besides this greenhouse use, however, they have proved themselves extremely valuable in the Southern States and in other countries with a mild climate. If sown in these mild sections in September they will bloom by Christmas. In the Northern States they are grown to advantage for cut flowers one or two weeks earlier than the late varieties, by sowing the seed as early in the spring as the soil can be worked thoroughly.

LATE SPENCER varieties should be sown as early in the spring as the ground can be prepared. The soil should be rich, worked deeply, and with good drainage. Seeds should be covered about two inches deep with fine soil, and a light covering of straw is beneficial as a mulch for retaining moisture. Be sure to provide adequate support for the plants before they get too large.

SWEET PEAS

We have a large acreage planted and believe we are in a position to take care of all orders, especially if placed early. We will be in a position to make delivery of Florists' colors of Early Flowering Spencers July 1st from hand picked seed.

SPECIAL USES OF FLOWERS

FOR CUT FLOWERS

Accroclinium	Clarkia	Nigella
Agrostemma	Coreopsis	Pentstemon
Anchusa	Dianthus	Petunia
Antirrhinum	Didiscus	Phlox
Arctotis	Gaillardia	Poppy Nudicaule
Aster	Gerbera	Pyrethrum Roseum
Brachycome	Gomphrena	Rudbeckia
Cacalia	Gypsophila	Salpiglossis
Calendula	Helichrysum	Scabiosa
Calliopsis	Larkspur	Schizanthus
Candytuft	Marigold	Stocks
Carnation	Mignonette	Sweet Peas
Centaurea	Nasturtium (Gleam)	Verbena
Chrysanthemum		Zinnia

ANNUALS THAT DO WELL IN A SLIGHTLY MOIST SOIL

Amaranthus	Linum	Mignonette
Calendula	Marigold	Nigella
Larkspur	Marvel of Peru	Ricinus

ANNUALS WHICH WITHSTAND DROUGHT

Abronia	Coreopsis	Marvel of Peru
Ageratum	Cosmos	Mesembryanthemum
Alyssum	Cynoglossum	Petunia
Arctotis	Dianthus	Portulaca
Bartonia	Dimorphotheca	Scabiosa
Brachycome	Euphorbia	Statice
Browallia	Gaillardia	Tithonia
Calliopsis	Helianthus	Verbena
Candytuft	Hollyhock	Vinca
Centaurea	Humulus	Zinnia
	Marigold	

PLANTS FOR HANGING BASKETS, ETC.

Abronia	Geranium	Nasturtium (Gleam)
Ageratum	Ipomea	Petunia
Asparagus sprengeri	Lantana	Portulaca
Begonia	Lobelia	Thunbergia
Coleus		Verbena

FLOWERS FOR WINTER BOUQUETS (DRIED FLOWERS)

Accroclinium	Gypsophila paniculata	Physalis
Catananche	Helichrysum	Rhodanthe
Celosia Cristata	Lunaria	Statice
Gomphrena		Zeranthemum

DWARF EDGING PLANTS

Ageratum	Gazania	Pansy
Alyssum	Lobelia	Portulaca
Arabis	Marigold (French)	Pyrethrum aureum
Armeria	Marigold (Signata Pumila)	Verbena
Aubrietia	Myosotis	Viola
Bellis	Nasturtium (Dwarf)	Virginian Stock
Campanula carpatia	Nemesia	Zinnia Tom Thumb
	Nemophila	

SPECIAL USES OF FLOWERS

RAPID GROWING ANNUAL VINES

Canary Bird Vine	Dolichos	Nasturtium (Tall)
Cardinal Climber	Gourds	Scarlet Runner Beans
Cobea	Ipomea	Sweet Peas
Cypress Vine	Morning Glory	Wild Cucumber

ANNUALS FOR FRAGRANCE

Alyssum	Matthiola	Stocks
Candytuft	Mignonette	Sweet Peas
Carnation	Nasturtium (Gleam)	Sweet William
Centaurea imperialis	Nicotiana	Valeriana
Heliotrope	Petunia	Wallflower
	Scabiosa	

ANNUALS FOR POOR SOIL

Alyssum	Cosmos	Nasturtium
Antirrhinum	Euphorbia	Portulaca
Carthamus	Godetia	Statice
Celosia	Kochia	Ursinia
Chorizanthe	Mesembryanthemum	Venidium
Clarkia		Verbena

ANNUALS WHICH PREFER A LIME SOIL

Amaranthus	Hunnemannia	Stocks
Dianthus	Mignonette	Wallflower
	Momordica	

FOR SEMI SHADE

Anchusa italica	Clarkia	Lupin
Aquilegia	Coleus	Myosotis
Bellis perennis	Geum	Pansy
Campanula	Godetia	Platycodon
Centaurea	Linaria	Sweet William

FOR ROCK GARDENS

Annuals

Abronia	Mesembryanthemum	Sweet Pea Cupid
Alyssum	Nemesia	Thunbergia
Brachycome	Nemophila	Statice Tom Thumb
Dimorphotheca	Phlox drummondii	Ursinia
Leptosyne	Portulaca	Verbena
Leptosiphon	Sanvitalia	Virginian Stock
Linaria	Saponaria	Zinnia Tom Thumb
Lobelia	Schizanthus	Zinnia Haagaena

FOR ROCK GARDENS

Perennials

Alyssum saxatile	Dianthus	Nepeta
Aquilegia	Fragaria	Oenothera macrocarpa
Arabis	Geum	Platycodon
Armeria	Helianthemum	Poppy Nudicaule
Aubrietia	Heuchera	Potentilla
Bellis perennis	Linum	Primula
Campanula carpatica	Lychnis	Tunica
Cheiranthus	Myosotis	Veronica
Cerastium		Viola

February 7th
1935

Gentlemen:

May we remind you that our 1935 Price List is not in effect until May 1st, 1935. When placing orders for immediate delivery, please refer to our 1934 Price List and Novelty List, and our subsequent Short Lists for prices and other information relative to stocks still available.

We urge the placing of early contract orders for crop 1935, especially on items which you expect to use in large quantities.

If you issue a catalog, we would appreciate it if you will put our name on your mailing list. We frequently have occasion to refer to catalogs issued by our customers and besides we are interested in seeing the novelty items you are featuring.

With best wishes for a prosperous 1935, we are

Yours very truly,

BODGER SEEDS, LTD.

CYTOPLASMIC CHOICE FROM MEY EEDOR-SINCE 1990
